

# CHENNAI FACILITY

## About ASNT India

ASNT India Private Limited, known as ASNT India, is a subsidiary of the American Society for Nondestructive Testing (ASNT) that will conduct business operations in India and serve interests in Asia and the Middle East. Located in Chennai in Tamil Nadu, ASNT India will enable ASNT to expand and improve our certification portfolio and increase our global nondestructive testing (NDT) research and scholarship activities.

ASNT India provides ASNT-approved training courses, certification exams (computer-based and practical lab exams), membership, events and publications.

## ASNT Certification

ASNT Certification is the most recognized credential for NDT and has been the standard for the NDT industry for more than 80 years. An ASNT certification provides industry recognition, career advancement opportunities, and confidence in your inspection abilities.

Certification, recertification, and accreditation are managed by ASNT Certification Services LLC.

## ASNT India Will Offer

- ASNT 9712 Level II and III exams in the following methods: Magnetic Particle Testing (MT), Liquid Penetrant Testing (PT), Ultrasonic Testing (UT), Radiographic Testing (RT) and Visual Testing (VT).
- ASNT NDT Level II and III training and exams in the following methods: MT, PT, UT, RT and VT.
- NDT training and certification preparation classes for ASNT 9712 and ASNT NDT Level II and III exams.
- ISQ (Industrial Sector Qualification) for the Oil and Gas Sector. (Phased Array Examination)
- Membership
- Events

## ASNT 9712

The ASNT 9712 program certifies NDT personnel through examination to the highest standard. This program follows the process of certification by an independent, nationally recognized body—ASNT. ASNT 9712 is designed to meet the requirements of ISO 9712 : 2021 standards standard. The program provides a global standard for certification, increasing the credibility of the NDT industry. It benefits employers by allowing them to hire NDT personnel without administering exams, saving time and money.

ASNT India provides the training and examinations for ASNT 9712 Level II and Level III at its Chennai facility. Exam candidates can also choose to sit for training in one of ASNT India's Authorized Training Centres (ATC) in locations throughout India.

### Level II Examinations Include:

- **General Written Examination:** covers fundamentals, principles, and theory of the method.
- **Specific Written Examination:** covers specific applications of the test method in accordance with codes and standards used in the applicable industry sectors.
- **Practical Examination:** applicants must demonstrate the ability to perform the test method and technique on specimens containing known defects.
- **Instruction Preparation:** applicants must prepare written instructions for the test method.

### Level III Examinations Include:

- **Basic Examination:** covers certification processes, materials and processes, and general knowledge of other NDT test methods.
- **Basic Supplemental Examination:** covers additional knowledge of examination requirements according to ISO 9712:2021: *Nondestructive testing – Qualification and certification of NDT personnel*. NDT Methods: RT, UT, MT, PT, and VT.
- **Method Examination:** covers specific knowledge of the test method.
- **Practical Examination:** applicants must demonstrate their ability to perform the method on test samples containing known defects.
- **Procedure Preparation Examination:** applicants are required to write an NDT procedure based on a supplied NDT standard.

## ASNT NDT Level III Examination

The ASNT NDT Level III program provides third-party certification for NDT personnel whose specific jobs require knowledge of the technical principles underlying the NDT tests they perform, witness, monitor, or evaluate. The program provides a system for ASNT NDT Level III certification in NDT in accordance with Recommended Practice No. SNT-TC-1A. The ASNT NDT Level III program is the core certification program for ASNT Certification Services LLC. ASNT NDT Level III certifications are recognized worldwide.

To apply for the ASNT NDT Level III examination, visit [asntcertification.org](https://asntcertification.org)

## ASNT NDT Level III Certification Prep Courses

ASNT India will provide certification prep courses for ASNT NDT Level III certification exams. These courses can help you prepare for an NDT exam, advance your career, increase your NDT knowledge, and much more. The subject matter for Level III certification prep courses is derived from the training topics found in CP-105, Recommended Practice No. SNT-TC-1A, and CP-189.

ASNT certification prep courses are considered as Level III courses. They are designed for those who are currently Level II or III and are looking to become an ASNT Level III or maintain their Level III status. The courses are structured around the same body of knowledge as the ASNT NDT Level III examinations.

## Membership:

ASNT's strength is connecting our diverse, global membership of professionals working in all areas of NDT. Our members span the career spectrum, but all uniquely benefit from the shared ideas and cross-discipline resources representing the incredible breadth of our community's experience.

More than 12 000 members rely on ASNT for their professional needs - from certifications and standards to affordable education, events, publications, and more. ASNT membership provides access to resources and events designed to support you in the advancement of your career. No matter your role, ASNT has the education, tools, connections, and opportunities to help you succeed.

When you join ASNT, you gain access to essential benefits, including professional development opportunities, critical tools and resources, and opportunities to connect with NDT leaders and colleagues. Learn more at [asntindia.org](https://asntindia.org).
